Education

FAST NUCES   Faisalabad

Bachelors, Computer Science, 3.53/4

6 Times listed in the Dean's List of Honour.

Experience

Dubizzle Labs   Lahore

Software Engineer   Apr, 25 - Sep, 25

- Contributed to development and enhancement of **Bayut and Dubizzle's internal CRM system**
- **Designed and implemented multiple dashboards** featuring interactive charts and hierarchical tables to improve data visualization for internal teams
- **Built reusable generic components** integrating third-party libraries (Drag-and-Drop, React Hook Form, Redux) to streamline development and reduce duplication
- **Mentored and trained new associates**, leading onboarding sessions and providing codebase guidance to accelerate their contributions

Cogent Labs   Lahore

Software Engineer   Oct, 24 - Apr, 25

- **Boosted App Performance by 40%** by restructuring legacy React components and optimizing WebSocket reconnection logic, reducing unnecessary API calls by 30% and cutting real-time data latency by 25%.
- **Led a 3-member cross-functional team** to deliver a mission-critical feature 2 weeks ahead of schedule, improving user engagement metrics by 15% through iterative feedback loops and Agile task prioritization.
- **Accelerated onboarding efficiency** by mastering 2 ongoing projects and team workflows, contributing to key feature deployments within the probation period while adhering to 100% of code quality standards.
- **Reduced production bugs by 25%** in Q3 by collaborating with senior developers to implement testing frameworks and code review best practices, conducting 20+ reviews to enforce project-specific standard

QBatch   Faisalabad

Associate Software Engineer   Jul, 23 - Oct, 24

- **Spearheaded development of 3+ scalable MERN stack web apps**, improving user experience by reducing page load time by **40%** and increasing app responsiveness by **25%** through optimized state management and server-side rendering.
- **Pioneered the Proxy Browser project**, achieving **100% user privacy compliance** and integrating **custom extensions/themes**, which boosted user satisfaction by **30%** and drove a **25% increase in monthly active users** within 6 months.
- **Developed a Node.js/Express backend boilerplate** adopted by **8+ projects**, reducing initial setup time by **50%** (from 40 to 20 hours per project) and standardizing practices for **90% of engineering teams**.
- **Streamlined deployment processes** by configuring **20+ AWS EC2 instances**, cutting deployment time by **20%** (from 2 hours to 1.6 hours) and enabling **50+ automated deployments/month** with zero downtime.

Skills & Interests

- **Programming Languages:** JavaScript, TypeScript, HTML, CSS, SQL, C/C++, Java
- **Tool and Technologies:** AWS (S3 and EC2), Nginx, GitHub.
- **Professional Development:** Participated in Coding Guru, Daira 2022, Job Fair 2022, and ICIT Conference 2022
